

## LIST OF CONTENTS

### VOLUME 46, NUMBER 1, 1991

- |  | <i>Articles</i>   |
|--|---|
| <b>A. R. Daniel and<br/>A. A. Chen (Jamaica)</b>                       | 1 Stochastic simulation and forecasting of hourly average wind speed sequences in Jamaica |
| <b>A. W. Harrison (Canada)</b>   | 13 Directional sky luminance versus cloud cover and solar position                        |
| <b>G. A. Bemporad and<br/>H. Rubin (Israel)</b>                        | 21 Internal waves and K-H instability in thermal layers of the Advanced Solar Pond (ASP)  |
| <b>J. Hu, J. P. Beans, and<br/>D. M. Auslander (U.S.A.)</b>            | 29 Start/stop control of fixed-pitch wind energy turbines                                 |
| <b>J. F. Manwell,<br/>J. G. McGowan, and<br/>B. H. Bailey (U.S.A.)</b> | 41 Electrical/mechanical options for variable speed wind turbines                         |
| <b>K. Kurata (Japan)</b>   | 53 Scale-model experiments of applying a Fresnel prism to greenhouse covering             |
| <b>S. J. Dear, T. J. Lyons, and<br/>M. J. Bell (Australia)</b>         | 59 Wind energy assessment under strong mesoscale forcing                                  |

### VOLUME 46, NUMBER 2, 1991

- |  | <i>Articles</i>   |
|--|---|
| <b>M. Z. Ismail, D. E. Angus, and<br/>G. R. Thorpe (Australia)</b> | 63 The performance of a solar-regenerated open-cycle desiccant bed grain cooling system |
| <b>B. S. Sherman and<br/>J. Imberger (Australia)</b>               | 71 Control of a solar pond  |
| <b>N. E. Wijesundera and<br/>M. Iqbal (Canada)</b>                 | 83 Effect of plastic cover thickness on top loss coefficient of flat-plate collectors   |
| <b>M. A. Elhadidy and<br/>D. Y. Abdel-Nabi<br/>(Saudi Arabia)</b>  | 89 Diffuse fraction of daily global radiation at Dhahran, Saudi Arabia                  |
| <b>J. Guion and M. Teisseire<br/>(France)</b>                      | 97 Nucleation of sodium acetate trihydrate in thermal heat storage cycles               |
| <b>K. Khouzam, L. Khouzam,<br/>and P. Groumpos (U.S.A.)</b>        | 101 Optimum matching of ohmic loads to the photovoltaic array                           |
| <b>K. M. Knight, S. A. Klein, and<br/>J. A. Duffie (U.S.A.)</b>    | 109 A methodology for the synthesis of hourly weather data                              |
| <b>P. P. Groumpos and<br/>G. Papegeorgiou (U.S.A.)</b>             | 121 An optimum load management strategy for stand-alone photovoltaic power systems      |

## VOLUME 46, NUMBER 3, 1991

## Articles

- |  |     |  |
|--|-----|--|
| <b>P. J. Burns, K. Han, and<br/>C. B. Winn (U.S.A.)</b>                                | 129 | Dynamic effects of bang-bang control on the thermal performance of walls of various constructions                    |
| <b>S. C. Mullick, T. C. Kandpal,<br/>and S. Kumar (India)</b>                          | 139 | Thermal test procedure for a paraboloid concentrator solar cooker  |
| <b>H. S. Sahsamanoglou,<br/>T. I. Makrogiannis, and<br/>H. Meletis (Greece)</b>        | 145 | An estimation of the total atmospheric pollution in the city of Thessaloniki using solar energy data                 |
| <b>J. M. Baleynaud, M. Petit, and<br/>A. Trombe (France)</b>                           | 149 | Attached sunspace—Sensitivity factors  |
| <b>R. Stockerl and H.-H. Kohler<br/>(Germany)</b>                                      | 167 | Dynamic investigations of the slow recrystallization of incongruently melting Glauber salt                           |
| <b>F. Rosa, A. Valverde,<br/>J. M. Aranda, J. Aranda,<br/>and J. Rodriguez (Spain)</b> | 175 | CESA-1 project capabilities for high temperature material testing: Application to the HERMES wing leading edge tests |
| <b>L. Youcef (Algeria)</b>   | 183 | Two-dimensional model of direct solar slab-on-grade heating floor  |

## VOLUME 46, NUMBER 4, 1991

## Articles

- |   |     |   |
|---|-----|---|
| <b>B. J. Briscoe and K. P. Galvin<br/>(U.K.)</b>                        | 191 | The effect of surface fog on the transmittance of light   |
| <b>C. Choudhury and H. P. Garg<br/>(India)</b>                          | 199 | Evaluation of a jet plate solar air heater  |
| <b>J. M. Gordon and<br/>H. J. Wenger (Israel)</b>                       | 211 | Central-station solar photovoltaic systems: Field layout, tracker, and array geometry sensitivity studies                           |
| <b>E. Meirovitch and A. Segal<br/>(Israel)</b>                          | 219 | Storing concentrated sunlight in the chemical bond: Unique stability and internal regulation—A simulative theoretical investigation |
| <b>S. Kabelac (Germany)</b>   | 231 | A new look at the maximum conversion efficiency of black-body radiation   |
| <b>D. E. Prapas and<br/>B. A. Sotiropoulos (Greece)</b>                 | 237 | The elimination of the reverse circulation in thermosiphon solar water heaters  |
| <b>A. Carotenuto, G. Ruocco,<br/>and F. Reale (Italy)</b>               | 241 | Heat exchange in a multi-cavity volumetric solar receiver   |
| <b>S. Bivona, R. Burlon, and<br/>C. Leone (Italy)</b>                   | 249 | Instantaneous distribution of global and diffuse radiation on horizontal surfaces   |
| <b>A. Louche, G. Notton,<br/>P. Poggi, and G. Simonnot<br/>(France)</b> | 255 | Classification of direct irradiation days in view of energetic applications   |

- |   |     |   |
|---|-----|---|
| <b>A. Louche, G. Notton,<br/>P. Poggi, and G. Simonnot<br/>(France)</b> | 261 | Correlations for direct normal and global horizontal irradiation on a French Mediterranean site |
|---|-----|---|

## VOLUME 46, NUMBER 5, 1991

*Articles*

- |   |     |   |
|---|-----|---|
| <b>J. Freilich and J. M. Gordon<br/>(Israel)</b>              | 267 | Case study of a central-station grid-intertie photovoltaic system with V-trough concentration |
| <b>P. Kauranen, K. Peippo, and<br/>P. D. Lund (Finland)</b>   | 275 | An organic PCM storage system with adjustable melting temperature                             |
| <b>Z. M. Salameh, F. Dagher,<br/>and W. A. Lynch (U.S.A.)</b> | 279 | Step-down maximum power point tracker for photovoltaic systems                                |
| <b>J. C. Barnard (U.S.A.)</b>                                 | 283 | An evaluation of three models designed for siting wind turbines in areas of complex terrain   |
| <b>W.-S. Wilke and J. Schmid<br/>(Germany)</b>                | 295 | Modelling and simulation of elements for solar heating and daylighting                        |
| <b>J. M. Andújar, F. Rosa, and<br/>M. Geyer (Germany)</b>     | 305 | CESA-1 thermal storage system evaluation  |
| <b>R. Pallabazzer and<br/>A. A. Gabow (Italy/Somalia)</b>     | 313 | Wind resources of Somalia   |

## VOLUME 46, NUMBER 6, 1991

*Special Issue: Solar Ponds**Articles*

- |  |     |   |
|--|-----|---|
| <b>F. Zangrando (U.S.A.)</b>   | 323 | On the hydrodynamics of salt-gradient solar ponds   |
| <b>S. Folchitto (Italy)</b>  | 343 | Seawater as salt and water source for Solar Ponds   |
| <b>K. Kanayama, H. Inaba,<br/>H. Baba, and T. Fukuda<br/>(Japan)</b> | 353 | Experiment and analysis of practical-scale solar pond stabilized with salt gradient                       |
| <b>F. Collado and P. Lowrey<br/>(U.S.A.)</b>                         | 361 | Temperature, thermal efficiency, and gradient performance from two seawater-SZ solar ponds                |
| <b>S. J. Kleis and L. A. Sanchez<br/>(U.S.A.)</b>                    | 371 | Dependence of sound velocity on salinity and temperature in saline solutions                              |
| <b>G. Lesino and L. Saravia<br/>(Argentina)</b>                      | 377 | Solar ponds in hydrometallurgy and salt production  |
| <b>E. Wilkins (U.S.A.)</b>   | 383 | Operation of a commercial solar gel pond  |
| <b>M. K. Smith and T. A. Newell<br/>(U.S.A.)</b>                     | 389 | Simulation and economic evaluation of a solar evaporation system for concentrating sodium chloride brines |
|  | 401 | Volume 46, 1991—List of Contents and Author Index   |
